## EXPERIENCE

### UX Designer at [Orale Construction \(Responsive website\)](#)

Estelí, Nic November 2022- January 2023

- Execute the web portfolio project for the company Orale Construction with the objective of showing the experience that the company has and being able to schedule a service with customers in less than 3 months.
- Created the user flow for the responsive portfolio website in fewer than 3 months, for a website using Figma through sketching, prototyping, and user testing.
- Direct the project using an agile framework to ensure efficiency and quality delivery with a team of 3 members.

### UX Designer at [Nacional Multidisciplinary University Ricardo Morales Avilés](#)

Managua, Nic May- octuber2022

- Initiated a project that helps students find all university information, news and initiate contact with university staff targeting a student community of over 2k+ users.
- Designed the user flow for the institutional website in fewer than 5 months, for a website using Figma through sketching, prototyping, and user testing.
- Managed the project using an agile framework to ensure efficiency and quality delivery in less than 5 months.

### UX Designer at [Contented \(Portfolio website\)](#)

Managua, Nic October 2021- November 2021

- Made the initial concepts of the portfolio website where it was necessary to showcase the 5 featured projects done by the agency based on Contented brand identity.
- Prepare usability studies for 5 people to integrate the initial concepts, which allowed to connect user needs with business objectives.
- Collaborate with the development team to deliver a quality product that met Contented objectives within 4 months.

### UX Designer at [Mi Amigo Foráneo App \(App & website\)](#)

Estelí, Nic January 2021- November 2021

- Execute a survey with more than 40 users to validate the main needs establishing the base for project acceptance and App prototyping.
- Designed the main interfaces for the App and Website in a period of 11 months using Figma through paper first, sketching, wireframes prototyping, and user testing.
- Prepared the project to present it to investors in hackathon Nicaragua 2021, where we showed a project based on the Lean Startup methodology made in 11 months of work.
